Former Minister Here Of Unitarian Parish Passes From Life

The Rev. George L. Thompson, 72, clergymen, author and lecturer, who was for several years a minister of the Northfield Unitarian church, well and favorably known, died at the Massachusetts General Hospital on Tuesday, August 17. Major Sherman said that he could not disclose the destination of the ship or identify its cargo but thought that local people might be assisted offered might be found interested to know that the ship is extremely profitable. Warren State Head Of Education Affairs Appointed By Governor

Julius E. Warren, superintendent of schools of Newton, has been named Commissioner of Education by Governor Leverett Saltonstall, to succeed Walter Downey of Boston, who will return as headmaster of the English High school in Boston. The appointment is of particular interest to our citizens because Mr. Warren received his early education in the schools of Northfield, when his father Julius Warren was superintendent here from 1895 to 1901.

Many remember the family very well as they participated in the social, civic and educational affairs of the community. Julius, the son graduated from the Barre, Mass., high school in 1906 and from Dartmouth college in 1910. From his graduation at Columbia University, he went to teaching and at various times was located at Rutland, Mass., Schenectady, N. Y., Brockton, Mass., Brattleboro, Vt., Gloversville, N. Y., and other places. He served as a superintendent and was located at Lakewood, Ohio before going to New York in 1934. Mr. Warren will assume his new activities immediately and it is hoped that some day in his official capacity, he may arrange to again visit Northfield, the place of his boyhood days. He will be accorded a most cordial welcome.

Used Car Prices Soar

Within the past two weeks a solicitation was conducted of motorists who have cars in storage or desirous of selling. The great demand for cars in the western area of the country has sent prices up and some enticing offers were made for used cars, which were manufactured since 1939. Persons desiring automobiles will have to select from the used car list for at least the duration of the war and for some time later, and if the demand continues as great as it is at present some attractive offers may be made, unless ceiling prices are formulated by the O.P.A. In the recent endeavor to purchase in Northfield from local owners, some six cars were disposed of.

Always Glad To Help

Members of the staff of the Franklin County Extension service are always glad to help the people of this community and vicinity with many of their home, farm and community problems. Perhaps if our citizens would avail themselves of this privilege of the Extension work in agriculture and home economics of the State, the home economics of the State, the about which he was most enthusiastic was playing an important part in the war effort.

Making A Revision Of New Testament Scholars At Chateau

An historic meeting of scholars has been taking place for two weeks at the Chateau of the Northfield Hotel in the sessions of the New Testament Section of the American Standard Bible Revision Committee, which is putting together the final draft of the New Testament, a work which was started in 1937. Other schools are revising the Old Testament, all of which is being sponsored by the International Council of Religious Education, a body which consists of 44 of the leading Protestant denominations.

The task of the committee is to revise the American Standard version of the English Bible, which was published in 1901 as a revision of the King James version of 1611. The present revision is based upon the new knowledge of the world of the first century A. D. which has been gained in the past fifty years. It is, like the King James version, terse and compact, probably the most complete demonstration ever held. If the call comes at night, the blackout must be very thorough. Residents should know the various signals in the alarm and what to do when they come.

The members of the committee are Dean Luther A. Weigle, chairman; James Moffatt, Edgar J. Goodspeed, W. Russell Bowie, Abel Rose Wentz, Henry J. Cadbury, Millar Burrows, Frederick C. Grant, and Clarence Tucker Craig.

Plan C. D. War Games County Is Included All Forces Respond

All Civilian Defense forces are to cooperate in a planned test and war game, when called sometime after September 20. The exact day and time will not be known in advance, but when the alarm is given the public will also be expected to participate and respect the regulations. The counties of Franklin, Hampshire and Hampden, known as region two, will receive the alarm at the same time. All personnel of the various departments of the local Civilian Defense forces will be expected to answer the alarms and there will be several incidents taking place. It is probable the Guard will be called and that airplanes will scan the skies. At any rate the event will be an important one and probably the most complete demonstration ever held. If the call comes at night, the blackout must be very thorough. Residents should know the various signals in the alarm and what to do when they come.

Wartime Ice Cream

North Americans are such lovers of ice cream that it rated a popular song several years ago. "I Scream For Ice Cream" was heard from coast to coast.

Today, even non-singers are screaming for ice cream. Dealers have a limited supply. Far too often the quality is not up to expectations. A nation of ice cream lovers is demanding good ice cream.

How can you satisfy the tastes of your family with what you are able to purchase? Well! A real wartime ice cream is possible. Heavy cream is not available but light cream will suffice. No eggs are needed, no cooking is necessary. Yet the ice cream is delicious.

An ordinary little household rennet tablet is responsible for this new ice cream — made in your automatic refrigerator. Just try the following recipe once — and your ice cream worries are over for the summer.

Wartime Vanilla Ice Cream (Automatic Refrigerator)

1 rennet tablet
1 tablespoon cold water
2 cups light cream
1/4 cup sugar
1/4 teaspoons vanilla

1. Dissolve rennet tablet by crushing in cold water.
2. Mix light cream, sugar and vanilla. Warm slowly, stirring constantly. When COMFORTABLY WARM, (110° F.) not hot, remove at once from heat.
3. Add dissolved rennet tablet and stir quickly for a few seconds only. Pour at once, while still liquid, into refrigerator tray. Let stand at room temperature until set — about 10 minutes.
4. Place in freezing compartment. Freeze until firm. Remove from tray to a bowl, break up with a fork and beat with electric or rotary beater until free from hard lumps but still a thick mush. Finish freezing. Top each dish with a few nut meats before serving.

MODERN MATHEMATICS

The latest fashion now is points... Oh! no, it isn't funny; We've got to calculate the cost Of points as well as money: Thus, twenty-four is forty-nine Or maybe ten is twenty, Sometimes sixteen is twenty-five, This is no day of plenty: And if we count the calories and vitamins A-B-C, X is X, and Y is Y, and the total, XYZ:

We have to study health charts, Put two and two together, Consult our ration book and purse, Then ask ourselves just whether This is best or that is best... We've learned to value now, The things once held within our reach, And food once known as chow.

Rose H. Walton

"Now, my son," said the fond mother, as her boy was starting off to join the navy, "remember to be punctual in rising every morning, so you will not keep the captain waiting breakfast for you."

Mrs. Jones: "Now, pupils, the latest island taken over by our troops is roughly about as large as Siam."

Willie Junior (taking notes): "The captured island is as large as Mrs. Jones."
